RE: Informal Bid 2017-03 Addendum # 5

ADDENDUM NO. 5

This **ADDENDUM #5** forms part of Moore County's Informal Bid for the WPCP Gravity Sewer Main and Flume Upgrade for the County of Moore Public Works Department. All requirements of the original specifications remain in effect in their respective order. **Receipt of this Addendum must be acknowledged by its inclusion with the Informal Bid and noted as an inclusion on the sealed envelope.**

The following changes and/or clarifications are hereby made to the original Informal Bid:
Sealed Bids will be due by 4:00 pm Friday November 18, 2016.

1. Question: The existing control box has existing pipes in it already. Please clarify which ones remain and which ones can be removed.
Answer: The existing drop for the gravity sewer being replaced will need to be removed from the control box. The Contractor will be responsible for the demolition and MCPW will be responsible for disposal. All other pipes in the control box will need to remain. The new suction line can be located in the field for best location
2. Question: Bid Item #9- Is this referring to grates on the flume or is this a clerical error?
Answer: The flume is required to have grates installed on the top as specified.
3. Question: Is the county going to "spot dig" the utilities near the building Sta. 3+06 to approximately Sta. 3+75?
Answer: No.
4. Question: In Addendum #2, question #8, a by-pass plan would be provided. Where can I find this information?
Answer: There was no statement reading that MCPW will provide a by-pass plan. The contractor is responsible for the by-passing and will need to coordinate the by-passing with the WPCP Superintendent.
5. Question: How many gallons per day of flow through existing line?
Answer: The gravity sewer main being replaced has a flow of approximately 2,700 gpm and this is the flow that will need to be by-passed. The influent flow of the plant is approximately 5.5 mgd and this flow cannot be by-passed.
6. Question: Can the bids for the Moore County WPCP Gravity Sewer Main and Flume Upgrade be submitted via email or fax or do they have to be delivered? If they have to be delivered, can we send by UPS or does it have to be hand delivered?
Answer: Sealed bids may be hand delivered or mailed (fax not accepted).

UPS/Fed Ex Address:

Terra Vuncannon
County of Moore
206 South Ray Street
Carthage, NC 28327

No further questions will be accepted. Sealed bids are due by 4:00 pm Friday November 18th.
